EDUCATION

Bachelor of Computer Science, Jagannath University, Jaipur - **8.23 CGPA**

2021 - 2025

SKILLS

Frontend	HTML, CSS, JavaScript, TypeScript, React.js, Redux, Next.js.
Backend	Node.js, Express.js, Python.
AI & Core Concepts	Generative AI (LLMs, LangChain, RAG, MCP), Data Structures & Algorithms.
Databases & ORMs	SQL (PostgreSQL), NoSQL (MongoDB), Redis, Prisma, Drizzle.
DevOps & Tools	Git, Monorepo, Docker, AWS, CI/CD, GitHub Actions, NGINX.

EXPERIENCE (1+ YEARS)

Suscin Innovation Labs

Software Engineer

Oct. 2024 - Present

- Built multiple Chrome extensions from scratch with 5000+ active users across [All Projects](#).
- Handled end-to-end project responsibilities, including UI/UX design, frontend, backend development.
- Developed [indexfast.pro](#) – A fast webpage indexing platform using Next.js, Node.js, optimized for SEO.

Freelance Full Stack Developer

Jun. 2024 - Sep. 2024

- Created custom tools, such as a form builder, web scraper and implemented an email service, reducing manual processes by 50%.
- Focused on writing reusable and maintainable code to ensure long-term scalability and efficiency.

PROJECTS

Scriptly (CLI Coding Agent)

[Code](#) / [Demo](#)

- Your AI coding agent in your terminal.
- An AI-powered terminal agent that can write code and debug using plain English.
- **Tech stack** - Generative AI, Prompt Engineering, Node.js, TypeScript, OpenAI API.

RapidDeploy

[Code](#) / [Demo](#)

- A deployment service that deploys React applications on cloud using AWS Services, reducing manual deployment time by 75%.
- Created an API that accepts a Git URL, spins up an ECS container, and deploys the website automatically, streamlining the process and improving deployment efficiency by 60%.
- **Tech stack** - Node.js, Docker, AWS-ECR, AWS-ECS, AWS-S3 Bucket, Redis, Socket.IO, Next.js, TypeScript.

QuickPay

[Code](#)

- An advanced payments platform with robust wallet management capabilities and seamless peer-to-peer transactions for secure payments.
- Engineered and integrated a merchant payment gateway that increased transaction processing speed by 40%.
- **Tech stack** - Turborepo, Next.js, Next.js API Routes, TypeScript, Next-Auth, Tailwind, Node.js, Express.js, PostgreSQL, Prisma.

Portfolio

[Live](#)

- Designed and built a portfolio using Next.js, GSAP animations and WebGL effects,
- Achieved 10k+ visitors and received praise for its modern, clean UI design and intuitive UX.

ACHIEVEMENTS

- Awarded \$40 for Dockerizing an ed-tech website, improving scalability and benefiting 550k+ students.
