◇ [kumawatap63@gmail.com](mailto:kumawatap63@gmail.com) ◇ [Linkedin](#) ◇ [Github](#) ◇ [Twitter](#) ◇ [Portfolio](#)

◇ Jaipur, Rajasthan

## EDUCATION

**Bachelor of Computer Science**, Jagannath University, Jaipur - **8 CGPA**

Expected 2025

## SKILLS

Technical Skills	C++, Python, HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Redux, GSAP, Node.js, Express.js, GraphQL, TanStack Query, Testing, Data Structures and Algorithms.
Cloud/DB'S	PostgreSQL, MongoDB, Redis, Kafka, AWS.
Tools	Git, Docker, CI/CD, Github Actions, NGINX, Prisma, WebSockets.
Soft Skills	Effective Communication, Critical Thinking, Problem solving, Collaborative Teamwork.

## EXPERIENCE

### Suscin Innovation Labs

Full Stack Developer

*Oct. 2024 - Present*

- Designed and developed an language translator extension for WhatsApp, Telegram and Discord. currently serving over 100 active users.
- Developed **indexfast.pro** – A fast webpage indexing platform using Next.js

### Freelance Full Stack Developer

*Remote*

- Worked with a German-based client for 3 months as a Full Stack Developer, focusing on writing reusable, maintainable code and ensuring clean code practices.
- Created custom tools, such as a form builder, web scraper and implemented an email service, reducing manual processes by 50%.

## PROJECTS

### RapidDeploy

[Code](#) , [Demo](#)

- A deployment service that deploy React applications on cloud using AWS Services, reducing manual deployment time by 75%.
- Created an API that accepts a Git URL, spins up an ECS container, and deploys the website automatically, streamlining the process and improving deployment efficiency by 60%.
- Tech stack** - Node.js, Docker, AWS-ECR, AWS-ECS, AWS-S3 Bucket, Redis, Socket.IO, Next.js, TypeScript.

### Language Translator Extension

[Live](#)

- Designed and developed a extension for WhatsApp, Telegram, and Discord to translate messages.
- Developed backend to support the translation services. Reaching 100+ active users.

### QuickPay

[Code](#)

- An advanced payments platform with robust wallet management capabilities and seamless peer-to-peer transactions for secure payments.
- Engineered and integrated a merchant payment gateway that increased transaction processing speed by 40%.
- Tech stack** - Turborepo, Next.js, Next.js API Routes, TypeScript, Next-Auth, Tailwind, Node.js, Express.js, PostgreSQL, Prisma.

### Portfolio

[Live](#)

- Designed and built a portfolio using Next.js, GSAP animations and WebGL effects, Achieving 10k+ visitors and praised for its modern, clean UI design and intuitive UX.

## ACHIEVEMENTS

- Awarded \$40 for Dockerizing an ed-tech website, improving scalability and benefiting 550k+ students.
